The Smithsonian Institution is an independent trust instrumentality of the United States which comprises the world's largest museum and research complex. The Smithsonian includes 16 museums and galleries, the National Zoo, and research facilities in several States and the Republic of Panama. It holds more than 143 million artifacts and specimens in its trust for the American people. The Smithsonian is dedicated to public education, national service, and scholarship in the arts, sciences, history, and culture.

The Smithsonian Institution was created by an act of August 10, 1846 (20 U.S.C. 41 *et seq.*), to carry out the terms of the will of British scientist James Smithson (1765–1829), who in 1826 had

bequeathed his entire estate to the United States “to found at Washington, under the name of the Smithsonian Institution, an establishment for the increase and diffusion of knowledge

¹ Administered under a separate Board of Trustees.

among men." On July 1, 1836, Congress accepted the legacy and pledged the faith of the United States to the charitable trust.

In September 1838, Smithsonian's legacy, which amounted to more than 100,000 gold sovereigns, was delivered to the mint at Philadelphia. Congress vested responsibility for administering the trust in the Secretary of the Smithsonian and the Smithsonian Board of Regents, composed of the Chief Justice, the Vice President, three Members of the Senate, three Members of the House of Representatives, and nine citizen members appointed by joint resolution of Congress. To carry out Smithsonian's mandate, the Institution executes the following functions:

- conducts scientific and scholarly research;
- publishes the results of studies, explorations, and investigations;
- preserves for study and reference more than 143 million artifacts, works of art, and scientific specimens;
- organizes exhibits representative of the arts, the sciences, and American history and culture;
- shares Smithsonian resources and collections with communities throughout the Nation; and
- engages in educational programming and national and international cooperative research.

Smithsonian activities are supported by its trust endowments and revenues; gifts, grants, and contracts; and funds appropriated to it by Congress. Admission to the museums in Washington, DC, is free.
