# REPORTING CONCEPTS

## GENERAL

This report is the Fiscal Year 2001 annual update of United States Government (USG) overseas loans and grant. It contains summary figures of USG foreign assistance since 1945 and detailed annual data for the last four fiscal years. The report groups recipient countries by geographic region, without distinction between developed and developing countries. Country names are those reported by the U.S. Department of State.

The U.S. programs included in "Economic Assistance" for all countries in this book are equivalent to those included in USG reports to the Development Assistance Committee (DAC) of the Organization for Economic Cooperation and Development (OECD) in compiling its statistics on "Official Development Assistance" (ODA).

Prior to FY 1955 grant data represent net obligations and loan data represent net authorizations. From FY 1955 to the present, annual data represent, unless otherwise specified, total new grant obligations and loan authorizations entered into during a given year. Cumulative grant and loan totals shown for the FY 1962-2001 period are also gross. The FY 1946-2001 cumulative totals, however, are on a net basis reflecting total grant obligations and loan authorizations for the entire period less all grant de-obligations and loan cancellations, write-offs and forgiveness during that period as reported in 2001.

The country levels shown in this report include not only the values of bilateral grants or loans issued by the US to a single country, but also other accounts that can be attributed to a country such as foreign disaster assistance, regional programs, etc. As a result, assistance levels reported here may differ from the USAID Fiscal Year 2003 Budget Justification to the Congress: Summary Tables data.

## I ECONOMIC ASSISTANCE

**A. U.S. Agency for International Development (USAID).** Data cover loan and grant commitments for development assistance (**DA**) made by USAID and its predecessor agencies. Commitments include loan authorizations and grants. For this report USAID data are divided into two groups. The first group is ESF (defined below), and the second group is development assistance (DA) which is comprised of the CSD, DAF, DFA, AEED and FSA accounts (also defined below). Country-level data include regional funds only where such funds were directly allocated to field missions. (The data for commitments in the interregional table include Department of State and Department of Energy contributions to international organizations and programs and miscellaneous Department of State expenses financed by USAID under the Foreign Assistance Act of 1961, as amended).

The Economic Assistance data include loan authorizations and grant obligations from current Child Survival and Disease Programs (CSD) – replaced by Child Survival and Health (CSH) in 2002, Development Assistance Fund (DAF), the Development Fund of Africa (DFA), Assistance to Eastern Europe and Baltic States (AEED), Assistance for the Independent States of the former Soviet Union (Freedom Support Act or FSA), the Economic Support Fund (ESF), and Security Supporting Assistance. Also included are commitments made in earlier years from appropriations for Contingency, Special Assistance, Defense Support, Direct Forces Support, Joint Control Area, International Organizations, Indochina Postwar Reconstruction, Middle East Special Requirements Fund, and Assistance to Portuguese Colonies in Africa. Security Supporting Assistance or Economic Support Fund (ESF) obligations are broken out of the total grant obligations and presented, net of recoveries as a separate line item in the country and regional tables.

Loan totals also include "capitalized interest", which represents interest on loans that rather than being paid when due, is added for accounting purposes to the face amount of the loan, and is thereafter treated as principal to be repaid with interest. The loans made from the Social Progress Trust Fund by the Inter-American Development Bank are not included in the USAID figures, but are included under "Other Economic

Assistance". Loan levels under Title V of the Congressional Budget Act of 1974, known as the Credit Reform Act, reflect only the subsidy value of the Housing Credit Subsidy and Administration loan program and are recorded as obligations. USAID program funding data for FY 2001 are drawn from the Agency's Fiscal Year 2003 Budget Justification.

**B. Food for Peace: Loans and grants under the P.L.480** - Agricultural Trade Development and Assistance Act of 1954 as amended:

**Title I - Sales Agreements.** Sales on credit terms "repayable in U.S. dollars" are shown in total as loans, excluding any initial down payments in dollars which have been specified in some sales agreements. The data exclude any private trade agreements financed under the Act. Any shortfalls or cancellations through FY 1973 are reflected in the year the agreement was originally signed. Beginning in FY 1974, such reductions are reflected only in the cumulative total, with no adjustments in annual agreements. FY 2001 data are the values of direct credit commodity sales agreements between recipient countries and the U.S. Department of Agriculture (USDA) as reported by the USDA Foreign Agriculture Service.

The portion of each agreement which is planned for country use and "repayable in foreign currency" is included in the country totals in the year the sales agreement was signed. A few agreements are more than a year's requirement. Adjustments have been made for actual shortfall of deliveries from annual agreements. Initial down payments are excluded from the data. Legislative authority for sales payable in foreign currency has expired.

**Title II - Food Aid and Section 416 Program. Emergency Programs.** This part of Title II authorizes funds for the transfer of agricultural commodities by the Commodity Credit Corporation (CCC) to meet famine or other urgent or extraordinary relief requirements or to promote economic development. The data include country levels of commodities authorized. Included is the value of USG commodity donations to the World Food Program (WFP) which the United Nations administers with food and financial support from the US and other donor nations. WFP donations reported under the "Assistance from International Organization" part of this report should be adjusted by the value of US contributions to this program to avoid any double

counting in this assistance category.

Through FY 1972 ocean freight is included. Beginning in FY 1973 through FY 1980, the data are shipment levels plus ocean freight. Starting in FY 1980 annual data are final obligations. From FY 1981 to FY 1998, the cost of ocean freight is not included in the country tables; starting in FY 1999 the cost of ocean freight is again included. The values of food aid for regional programs, of pre-positioned food stocks and of stock adjustments are reported in the interregional table. Commodity values through FY 1969 are at CCC cost; subsequent years are at export values.

Development and Section 416 programs are administered by private "Voluntary Relief Agencies" as reported in the USAID Fiscal Year 2003 Budget Justification. After an hiatus of several years, the USG in Fiscal Year 1999 authorized food aid transfers by the US Department of Agriculture under Section 416 of the Export Donations Program. For years prior to FY 1955, the data represent transfers authorized under section 416 of the Agriculture Act of 1949 (Public law 81-439). Beginning in 1989, Section 416 Export Donations Program was added to this program.

**Title III - Food for Development Program.** The Title III grant Food for Development Program authorizes funds for the transfer of agricultural commodities by the Commodity Credit Corporation (CCC) to eligible "least developed" countries under certain conditions and for specific development purposes. Originally part of Title I and administered by USDA, Title III was changed by the FY 1990 Agricultural Development and Trade Act. It became a separate program administered by USAID, but after FY 1999 funds were no longer being requested or appropriated for it.

## C. Other Economic Assistance

**Loans.** Included in this category are loans authorized by the Inter-American Development Bank from the Social Progress Trust Fund (SPTF), which the IDB administers for the United States and minor amounts of technical assistance grants from the Trust Fund. Excluded is SPTF participation in IDB loans.

**Grants.** These include the following separate line items:

Contributions to IFI's. In the summary table and in the Interregional table of this report, are recorded non-callable capital grants or subscriptions made by the US Government to any of the International Financial Institutions (IFI's) – The World Bank and the regional development banks. Data are reported from the USAID Fiscal Year 2003 Budget Justification.

Peace Corps. Data include country budgets for regular Peace Corps operations as reported in the USAID Fiscal Year 2003 Budget Justification plus obligations incurred for the operation of the overseas volunteer program, "Action".

Narcotics. Data include grants for International Narcotics Control as reported in the USAID Fiscal Year 2003 Budget Justification. They are Plan Columbia and the Andean Counter-narcotics Initiative.

Other. Most of the other programs included here were prior to FY 1953. The major programs included are the United Nations Relief and Rehabilitation Agency (UNRRA), "Civilian Supplies" (including Government and Relief to Occupied Areas), "Surplus Property Credits", "Civilian Relief in Korea", "Greek-Turkish Aid", "British Loans", and "Philippines Rehabilitation". Currently, the principal programs in this category are paid-in capital subscriptions and contributions to the United Nations System organizations, and to other treaty agreements and grants by the Inter-American Foundation. Beginning in FY 1985, Trade and Development grants, and in FY 1989, African Development Foundation grants are included in this category.

## II MILITARY ASSISTANCE

Annual data for both grants and credits beginning with FY 1964 onward are on a "program" basis, as are the cumulative totals.

**A. Military Assistance Program (MAP) Grants.** The data represent primarily grants of military equipment, supplies and services purchased with funds appropriated under the Military Assistance Program (MAP). Such grants under the MAP program, under the authority of the Foreign Assistance Act of 1961 (FAA), were provided through FY 1989, after which military assistance grants were provided under the Foreign Military Financing (FMF) program authorized by the Arms Export Control Act (AECA). Also included in this category are transfers of material under PL 91-652, PL 95-384, and PL 96-92.

**B. Foreign Military Credit Financing.** The "Credit" data through FY 1968 represent credit financing under the MAP program, including loans guaranteed by the Department of Defense, but provided through the Export-Import Bank. Data exclude direct cash sales of military equipment. "Credit" data for FY 1969-1993 represent U.S. government credits provided under the Foreign Military Sales (FMS) Credit and the Foreign Military Financing programs, authorized by the Arms Export Control Act. Totals include all such credits under the FAA and AECA.

**C. International Military Education and Training (IMET) Program.** Grant aid for training of foreign military personnel, which was formerly provided under MAP and Military Assistance Service Fund (MASF), was separated out and incorporated in an independent International Military Education and Training (IMET) program. The data represent grants of instruction and training services to military and related civilian personnel of friendly countries as reported in the USAID Fiscal Year 2003 Budget Justification.

**D. Transfers of Excess Defense Articles (EDA)** This data reflect the original acquisition value of equipment and supplies transferred to foreign governments that are excess to the requirements of the U.S. military and are granted to the foreign government at no cost to appropriated U.S. funds. Until FY 1974, the amount used was the legislated value of excess defense articles, representing 1/3 of the original acquisition value.

**E. Other Grants.** Data primarily represent aid provided under authorities of the Arms Export Control Act: grants provided to foreign countries under the Foreign Military Financing (FMF) program and forgiven credits provided under the Foreign Military Sales Credit program for the purchase of defense materials and services. Also included are transfers of vessels, generally requiring the return of the vessels, but on an indeterminate basis. For these “Vessel Loans,” the data represent the estimated value of the vessels.

## **OTHER U.S. GOVERNMENT LOANS**

This category includes US Export-Import Bank loans and other loans, principally short-term credits under the Commodity Credit Corporation Charter Act, Overseas Private Investment Corporation (OPIC) direct loans, and private trade agreements under Title I of PL 480.

**Export-Import Bank Loans.** The Export-Import Bank facilitates U.S. exports, primarily capital equipment, with loans to foreign buyers as well as with credit insurance and guarantees against certain commercial and political risks of loans extended by others. While some of these Export-Import Bank-assisted exports may have a developmental effect in the country of the buyer (most transactions are with foreign private sector entities), terms and conditions preclude classification as Official Development Assistance. Data reflect credits authorized in favor of foreign buyers; data for years prior to FY 1969 include only those having maturities of five years or more. Because this document reports only loans, data reflecting Export-Import Bank authorizations of export credit insurance and guarantees are not included; such information is contained in the Export-Import Bank’s Annual Report to the Congress.

**All Other Loans.** These include short-term credits by the U.S. Department of Agriculture under the Commodity Credit Corporation Charter Act, direct loans by the Overseas Private Investment Corporation (OPIC) and private trade agreements under PL 480 Title I.

**TIME PERIODS.** The commitments data for all economic and military programs are shown by U.S. fiscal years arranged in four broad groupings; Post-War Relief Period (1946-1948); Marshall Plan Period (1949-1952); Mutual Security Act Period (1953-1961); and Foreign Assistance Act Period (1962-2001).

**TOTAL LOANS AND GRANTS (1946-2001).** All US grant entries are calculated (from left to right) as the sum of all reported obligations for the periods 1946-2001 less any de-obligations that were reported in 2001 or in prior years. Totals may not correspond to sums of previous years for round-off reasons.

Loan entries are calculated as the sum of individual years’ obligations (1946-2001). USAID loan data are drawn from the Agency’s annual “Status of Loan Agreements” report and the U.S. Treasury. The values of loans by all other USG agencies come from Department of Commerce (BEA) data on “US Government Active Loan Programs”. As such “Total Loans and Grants” excludes the value of any loans cancelled, forgiven or otherwise written off as un-collectable.

Any local currency loans are expressed in dollars adjusted using exchange rates recorded by the US Treasury. (Note: Users of the data should be aware that tables do not reflect any increases in grant assistance as a result of loans paid out but later forgiven or written off as un-collectable. In practice such loan write-offs become grant transfers to recipient countries. An estimate of the grant value loan write-offs can be made by calculating the difference between values reported in the “Total Loans and Grants” column and the value of all loan agreements for the period 1946-2001.

**PRINCIPAL REPAYMENTS ON OUTSTANDING LOANS** The “Principal Repayments” column shows the cumulative principal repaid on loans made during the period 1946-2001 and includes payments on any capitalized interest. It includes repayments in dollars and in foreign currencies; the latter, of course, are expressed in dollar equivalents valued at the time of the payment using exchange rates reported by the US Treasury. Values in columns Total Loans and Grants 1946-01, Principal Repayments 1946-01, and Outstanding Loan Balances 1946-01 are net of government de-obligations and loan cancellations.

**OUTSTANDING LOAN BALANCES.** The “Outstanding Loan Balances” column shows the cumulative amount of loan principal yet to be repaid on loans made during the period 1946-2001 and on capitalized interest for that period. This value includes reductions for any exchange rate adjustments as well as for any loan cancellations or write-offs. Values in columns Total

Loans and Grants 1946-01, Principal Repayments 1946-01, and Outstanding Loan Balances 1946-01 are net of government de-obligations and loan cancellations.

**Note for interpreting Country Tables:** Columns and rows may not add to totals due to rounding. Values less than \$50,000 are denoted as 0.0 .

# **DEVELOPMENT ASSISTANCE FROM INTERNATIONAL ORGANIZATIONS**

## Development Assistance from International Organizations

### General Notes

The following table shows assistance given by major international organizations to all countries that have benefited from such assistance. The data represent assistance from all sources available to the various organizations, including contributions, subscriptions, bond issues, etc. The data do NOT represent contributions by the United States to these organizations; US contributions to International Financial Institutions are included in the first portion of this report.

Data are reported in millions of US dollars and conversion rates are noted where applicable. Data are based on the fiscal year of the reporting institution. The value of development assistance activities in 2001 includes only new project approvals, loan commitments, loan authorizations, grant approvals or expenditures for that year. Recipient countries are grouped by region to conform to the organization in the first part of this report.

**World Bank - International Bank For Reconstruction and Development (IBRD)** - Data cover project approvals for IBRD assistance either to governments or government enterprises or to private firms with government guarantees. No adjustments are made for subsequent sales of loan authorizations or for the value of any cancellations of prior year loans. Data are drawn from the World Bank's *Annual Report 2001* for fiscal year July 1, 2000 - June 30, 2001. Information about World Bank development assistance activities may be obtained from the World Bank web site at [www.worldbank.org](http://www.worldbank.org).

**International Development Association (IDA)** - Data cover project approvals for IDA assistance either to governments or government enterprises or to private firms with government guarantees. No adjustments are made for subsequent sales of loan authorizations or for the value of cancellations of prior year loans. Data are drawn from the World Bank's *Annual Report 2001* for fiscal year July 1, 2000 - June 30, 2001. Information about IDA development assistance activities may be obtained online at the World Bank web site at [www.worldbank.org](http://www.worldbank.org).

**International Finance Corporation (IFC)** - Data are from the IFC's July 1, 2000 to June 30, 2001 fiscal year. The loan values represent IFC and IFC-syndicated commitments to IFC member countries. The data include both disbursed and revalued undisbursed balances and do not include the IFC's equity position in stocks or other equities. The values reflect the net difference between cumulative commitments between fiscal year 2001 and fiscal year 2000. Cumulative commitments are reported in the IFC *Annual Reports*, 2000 and 2001. Net cumulative commitments may be negative due to corrections during re-posting the following fiscal year, currency revaluation, or original commitments being posted in one fiscal year but post-dated the prior fiscal year when the signed documents are received.

Information regarding the IFC financial transactions and data on earlier years may be obtained online at [www.ifc.org](http://www.ifc.org).

**Inter-American Development Bank (IADB)** - Data cover the US dollar value of loan approvals and loan guarantees approved during the 2001 calendar year and made either to governments, government enterprises or to private firms from the Bank's Ordinary Capital and Fund for Special Operations accounts and administrative costs. The loan values do not reflect cancellations from previous years. Data exclude original loans from the Social Progress Trust Fund (SPTF) which the IADB administers for the United States; they include, however, any loans purchased from the IADB with SPTF reflows. Data are from the IADB *Annual Report*, 2001. Information about IADB development assistance activities may be obtained online at [www.iadb.org](http://www.iadb.org).

**Asian Development Bank (AsDB)** - Data cover the US dollar value of public and private sector loan and grant approvals for the ADB during calendar year 2001. Values are based on conversions from the Bank's unit of account (UA) to US dollars using the end of period exchange rate (1.26 US dollars to one UA as reported for 2001 by the AfDB). Data are from the AfDB *Compendium of Statistics on Bank Group Operations 2002*. Information about AfDB development assistance activities may be obtained at [www.afdb.org](http://www.afdb.org).

**European Bank for Reconstruction and Development (EBRD)** - Data cover the US dollar value of EBRD gross disbursements by country for the calendar year 2001.
