Our Motto

सा विद्या या विमुक्तः
forms part of a verse appearing in
Vishnu-Purana (1.19.41)

The whole verse reads as follows:

तत्कर्म यन्त्र बन्धाय
सा विद्या या विमुक्तः ॥
आयासायापरं कर्म
विद्याज्ञा शिल्पनेपुणम् ॥

The verse also occurs in the anthology of subhasitas entitled
"Sarangadhara-paddhati" (No.4396). In this latter work, the source of the
verse is given as Vasishtha. The verse obviously possesses an ethical-
spiritual import and may be translated as follows:

“That is (right) action which does not conduce to
bondage (Karmabandha in the Bhagavadgita sense);
that is (true) knowledge which conduces to final liberation
or spiritual emancipation; (any) other knowledge
implies mere skill in craft

“बन्धन का कारण न हो, वही कर्म है और मोक्ष को
सिद्ध करने वाली हो, वही विद्या है। इससे भिन्न
कर्म व्यवस्थ परिश्रम रूप और भिन्न विद्याएँ केवल
cला-कौशल रूप ही हैं ॥”

It is a pleasure to present the Annual Report of the University and its growth and development during the year 2013-2014. This Report reflects the sustained pace of growth and development of the University during the said year. The University of Hyderabad (UoH) retains its position as one of the major Universities in India in the area of higher education, achieving honours and attaining standards that set a benchmark.

The student strength in various disciplines this year stood at 5159, out of which over 45.28% are research scholars pursuing Ph.D. and M. Phil. / M. Tech. programmes. Women students constitute 36.46% of the total strength. 31.25% of the students are from reserved (SC/ST/PH) categories and an additional 30% are from the OBC category. In addition, more than 1261 students were enrolled in 14 P.G. Diploma courses.

The Study in India Programme (SIP) of the University aims at providing an opportunity for foreign students to experience and study not only the various aspects of Indian society, history and culture but also sciences and information technology and in the process creates an international environment on the University campus. The Programme emphasizes heritage, continuity and change in India. Under the SIP, a number of interdisciplinary courses are offered to participants from North American and European universities.

The University of Hyderabad can rightly boast of a highly qualified and internationally renowned faculty. Our faculty, numbering 404, produced over 1220 research publications including 66 books during the year. They also contributed to the award of 171 Ph.D., 189 M.Phil. 155 M. Tech. and 923 postgraduate degrees. The faculty earned research funding for 260 individual research projects with a total outlay of over Rupees 190 crores from various national and international agencies. These projects supported 264 research scholars. Several consultancy and industry sponsored projects were also undertaken.
The University is now 40 years young and is regarded as one of the major Universities in India in the area of higher education, achieving honours and attaining standards that set a benchmark for other universities in India. Our faculty have written over 1,250 books and more than 17,500 papers since inception. We are also pleased to share the news that we have been granted 16 patents. All these have helped us achieve an eminent position of Excellence within the Central University system of our country as indeed on the academic landscape of the nation. The National Assessment and Accreditation Council (NAAC) has reaccredited our University with an ‘A’ grade and CGPA of 3.72 out of 4:00 which is the highest in the third cycle of reaccreditation for any institution in the country.

Over the year our faculty members have been honoured with several national and international fellowships and awards of leading academies in India and abroad. These include INSA Teachers Award (2013), Royal Society Visiting Fellowship, Indo-American Frontiers in Science awards (2013), UoH Chancellor Award-2013, Prof. D. K. Banerjee Memorial Lecture Award 2012, YIM Boston Young Scientist Award, AP Scientist Award 2012 of APCOST, International Union of Immunological Societies and Bill, Melinda Gates Foundation’s Travel Grant, DBT-CTEP Travel Award, Best Paper Award by Bioquest 2013, DBT-CREST by Department of Biotechnology, UPE-II (UoH) Travel Grant, Raman Fellowship for Post-Doctoral Research, Pitamber Pant National Environment Fellow Award, “India’s Best Researcher” by Careers 360, UGC Indo-US Raman Fellowship, ICMR Prize-2010, Fulbright – Nehru Teaching Fellowship 2013, Bhimsen Nirmal National Award 2013, Keerthi Puraskaram for Telugu Literary Criticism, Panditasammanam, Sarat Chandra Roy Memorial Medal-2013, Charles Wallace India Trust Research Grant, UK, International Research Collaboration Award from the University of Sydney, B-School Leadership Award, ARVO/Merck Collaborative Research Fellowship Award-2013, Best Oral Presentation Award, Royal Society Visiting Fellowship at the Department of Physiology, Best Thesis Award, Optical Society of America Student Grant, B.M. Birla Science Prize, Reeta Peshwaria Menon Research Fellowship, Indian Association of Clinical Psychologists’ Child and Adolescent Mental Health Award, Shri Raghunandan Singh Chauhan Memorial Award for Best Health Psychologist 2013, Mahila Siromani Award.

In addition, several members of the faculty visited reputed institutions in India and abroad as Visiting Professors and were nominated for memberships of editorial boards of several reputed international journals. Members of the faculty participated actively in the working of organizations like CSIR, UGC, DST, DAE, DBT, ICMR, NBHM, ICHR, ICPR and ICSSR in various capacities throughout the year as expert members. The year, the UoH also witnessed several international and national workshops, conferences and seminars where speakers from different parts of the world presented their findings.

In its twelve Schools of study at present the University offers postgraduate and research programmes in several areas of the Humanities, Social Sciences, Natural Sciences, Arts, Management, Medical Sciences, Engineering, Mathematics and Statistics; and Computer and Information Sciences. There are also a large number of students under the Centre for Distance and Virtual Learning Programme through 14 PG Diploma courses. A crucial and significant new addition to the University in coming years will be the School of Education that has been granted by the UGC. I hope that with the addition of this important discipline, we will be able to make progress in a crucial dimension, the intersection of instruction with technology. We need to be able to reach out to larger and larger numbers of our fellow citizens and thereby fulfill the responsibility that we all share, namely of educating the bulk of the country to create a modern nation-state.
The University now has a Kendriya Vidyalaya for the benefit of its staff, and is also presently running a pre-primary (LKG and UKG) on the campus for the benefit of employees’ children as well as for those from the neighbourhood.

The University Grants Commission (UGC) and the Ministry of Human Resource Development (MHRD), Department of Science & Technology (DST) and the Department of Biotechnology (DBT) and other funding organizations have extended their generous support to the University throughout the year, and I express my gratitude to them for their cooperation.

I believe that it is necessary for the University to also have well-defined social goals that can only be reached by the collective work of a body such as ours, where research, teaching and scholarship are valued, nurtured and encouraged. I believe that this is a fundamental way in which a university can contribute to the overall good of the society in which we are embedded, the society out of which we grew, and the society we were destined to serve.

We are confident that with the reforms and innovations introduced at the University, we will certainly be amongst the leading universities of the world in the years to come. I take this opportunity to thank all sections of the University fraternity - the faculty, students, and the non-teaching staff, for their valuable contributions to the process of making this University an institution of academic excellence.

**2.1.2 Study in India Program**

SIP started its sixteenth year of short term programs for international students with a four weeks long five credits course on ‘Contemporary India’ for a total of 27 students. The program included 22 students sponsored by the Nordic Centre in India (NCI), and five from the universities in the USA. Dr. Shaji S., Department of Political Science, was the coordinator.

A total of 85 international students participated in several programs of SIP during the session 2013-2014. The collaborators who sent students to SIP included, among others, the University of California’s Education Abroad Program (UCEAP), Council on International Educational Exchange (CIEE), Nordic Centre in India (NCI), American Institute of Foreign Study (AIFS) and International Student Exchange Program (ISEP), and Dartmouth College.

The fall semester program (July 2013 – November 2013) commenced with 36 students. Besides the usual interest in SIP courses like Basic Hindi, Conversational Hindi, Basic Telugu, Indian Philosophy, and Kuchipudi Dance, the students also opted for several courses offered in the School of Social Sciences, viz. Department of History, Political Science, Sociology, Indian Diaspora, and Anthropology. In the School of Humanities, students picked up courses in the Department of English, Philosophy and in CALTS. In the Sarojini Naidu School of Arts and Communication (S N School), students opted for courses in Communication.

The spring semester (January 2014 – May 2014) of the Study in India Program had 49 students. The students took up SIP-designed exclusive courses, viz. Basic Hindi, Basic Telugu, Basic Sanskrit, Ayurveda, Yoga and Kuchipudi...
Dance. Again, in this semester also, students attended the courses offered in History, Political Science, Sociology, Anthropology, Economics, Regional Studies and Health Psychology. The students opted for courses in Department of English. Department of Philosophy and in CALTS. They also chose courses in Communication, including the new course Community Media and the Public Sphere.

One of the partners, Dartmouth College, an Ivy League institution, for the third time brought six students for a 10-week special program for their Gender and Film Studies and Asian studies students. The Dartmouth college students were accompanied by their faculty, Prof. Reiko Ohnuma, with EXPERTISE in Buddhism in South Asia / Hinduism in South Asia / women and religion, who also taught a course during these 10 weeks.

At the end of both the fall and the spring semesters, the students put up colourful cultural evenings at a packed DST auditorium. It has become a convention now to have them perform for the campus community towards the end of a semester. The program is a good combination of what they learnt in India as well as what they brought back from home.

In collaboration with the Centre for Women's Studies, the Study in India Programme also organized on the campus, a distinguished lecture on “How Motherly is the Mother Tongue?” by Suniti Namjoshi followed by ‘Writers in Conversation’ with Bama Sivakami, Salma Revathi A and Urvashi Butalia on January 27, 2014.

Outreach activities organized

The Networking Resource Centre established in the School of Chemistry, University of Hyderabad with a grant from the UGC, aims to network with other institutions, especially undergraduate and postgraduate colleges and universities in the region, and thereby contribute to the progress in chemical education and research. The major activities of the Centre during the period April 2013 – March 2014 were the following.

1. **Short term research projects** were carried out by 31 M.Sc. students from various colleges and universities in the country, in different research groups in the School during the period, primarily during the summer vacation of 2013. The projects were typically for a period of 2 months.

2. 26 Ph.D. students/post-doctoral researchers and 3 teachers from various Universities and colleges carried out **Training Visits** in the different research groups in the School, working primarily in the area of their own research. Period of the visits ranged from 1 – 6 months. A database of all those who completed the Training Visit has been prepared and presented on the website of the Centre.

3. A **School** on “NMR Spectroscopy” was conducted during August 12 – 24, 2013. 15 M.Phil./Ph.D. students and 7 faculty members from 16 colleges/universities across the country participated. The School consisted of extensive lectures and laboratory experiments focused on advanced applications of NMR spectroscopy.
4. A Winter School on “Computational Chemistry” was conducted during December 2 – 14, 2013. 15 Ph.D. students and 4 faculty members from 18 colleges/universities in the country participated. The School consisted of an intensive lecture schedule combined with extensive hands-on computational exercises, covering the basics of quantum chemistry, structure and bonding, and specialized applications of ab initio computations.

5. A custom-made software (Project Management System) that enables efficient management of the accounting of the project funds as well as maintenance of the student/visitor register has been implemented.

4.10 School of Engineering Sciences & Technology

School of Engineering Sciences & Technology (SEST) was established with a mission and objective to pursue high quality research and impart research-led education in emerging multi-disciplinary areas encompassing science, engineering and technology. SEST started functioning from the academic year 2008-09 by initiating an integrated M.Tech./Ph.D. programme in Materials Engineering. Integrated M.Tech/Ph.D programme in Nano Science and Technology commenced in the academic year 2010-2011. Ph.D. programmes in Materials Engineering and Nano Science and Technology have also been initiated. SEST will progressively expand to offer multi-disciplinary programmes in other frontier areas spanning varied engineering disciplines. SEST provides a perfect environment to pursue cutting-edge cross-disciplinary research in engineering sciences and technology by taking advantage of the facilities and expertise available with the well established schools of study at the University, particularly Physics, Chemistry, Mathematics & Computer/Information Sciences and Life Sciences. SEST is offering courses/research projects in collaboration with these Schools as well as the Centre for Nanotechnology (CFN), Advance Centre for Research on High Energy Materials (ACRHEM), Centre for Modeling, Simulation and Design (CMSD) and Central Instrumentation Laboratory (CIL) on campus.

University Centre for Earth and Space Sciences (UCESS) was established at the University of Hyderabad in December, 2004 to initiate inter-disciplinary and inter-institutional (industry, R&D laboratories and academia) research and teaching programmes. The hallmark of the Centre lies in using synergy between the Earth-Oceanic-Atmospheric realms, Space and Information Sciences to promote knowledge-driven and job-led economic development of the country. UGC has recognized the Centre, and granted faculty and research fund through ‘Innovative Research Program’. The Centre is striving to impart competitive and quality training in the field of mineral exploration in collaboration with various R & D Institutes (Atomic Mineral Directorate, National Geophysical Research Institute), Industry (Baldota Foundation, NMDC) and Academia. The Centre is determined to impart knowledge and training in exploration strategies for sustainable development of natural resources of the country. The Centre also offers high quality teaching and research in the fields of solid earth, ocean and atmosphere, water resources and environmental sciences. In this direction, Centre will be offering M. Sc in Ocean & Atmospheric Sciences from the academic year 2012 and M.Sc. in Environmental Sciences in 2014. The Academic Council has also approved to start 5-year Integrated M.Sc. in Earth Sciences from the academic year 2013.

The UCESS has received research funding from Ministry of Earth Sciences, Naval Research Board (DRDO), Indian Space Research Organisation and Department of Atomic Energy.

4.18 Centre for Modelling Simulation and Design (CMSD)

Preamble:
The study of passage from the micro world of atoms and molecules to the macro world of solids, liquid and gases calls for an understanding of a variety of phenomena in physics, chemistry, biology and engineering science and technology and related areas. Atomic lasers, molecular computers, drug-receptor interactions, industrial catalysts, lubricants, and industrially important materials form part of this continuum and an understanding of this evolution needs all the three components of research viz. theory, experiment and computation. Computer-based simulations now form an integral part of modern research methodology and in this era of science-driven-engineering and directed basic research, the role of scientific research, based on modeling, simulation and design, is of paramount importance. The primary requisite in using the third avenue of research for solving complex problems is a working, state-of-the-art High Performance Computing (HPC) center.

The University of Hyderabad, having expertise in many of the above areas, fully appreciates the inter-dependence of Science, Engineering and Technology, and launched a uniquely conceived new programme. This initiative was launched through an imaginative programme of the UGC (recognizing the University for its Potential for Excellence) by establishing a designated Centre for such activity (Centre for Modelling Simulation and Design – CMSD). This programme has been receiving generous support from DST under its FIST program.

CMSD aims to nurture cross-disciplinary bridges, which are effective in generating new knowledge and creative explorations. The human resources generated from such efforts will be invaluable. Training individuals and organizations in specific hardware and software, undertaking of consultancy and turnkey projects, help convert real life phenomena into appropriate mathematical and computational models etc., are some of the important tasks that CMSD has embarked on. This centre became operational from its new premises in December 2004.

One of the unique academic features of this centre is that all the active computational scientists working in widely different academic disciplines in the university campus are associate faculty of the CMSD, and contribute their expertise and experience in furthering its objectives. Some of the research interests of these members include: physics of low dimensional systems, topological defects in in fluids in restricted geometries, critical phenomena in complex fluids and magnetic systems, Monte Carlo simulations and development of novel sampling techniques, genomics and bioinformatics, protein folding, cognitive neuroscience, computational intelligence, natural language understanding, Very Large Scale Integration (VLSI), quantum chemistry and Density Functional Theory (DFT), molecular modeling, drug design and delivery, design of new materials etc.

Dean Students’ Welfare: Prof. B. V. Sharma

The office of the Dean, Students’ Welfare while primarily looks after the welfare of the students with active support from the elected representatives of the students, faculty and administration functions for smooth working of the university through student participation. The multiple tasks of DSW include: facilitating the conduct of student union elections and thereby encourage leadership, democracy and tolerance among students besides enabling participation in decision making; organize necessary support and care for students requiring medical aid and hospitalization; facilitate interactions between different student groups and promote understanding and mutual respect; encourage participation in extracurricular activities; suggest the Vice-Chancellor on matters that enable comfortable stay of students on campus; and recommend Vice Chancellor on expenditure of student aid fund, emergency medical aid and student union fund.

Currently, the ‘Scholarships and Fellowships Section’ that deals with sanctioning of a variety of scholarships to the post graduate students and fellowships to the research scholars is also under the control of DSW. This responsibility has in fact emerged as the most demanding role of the DSW owing to the fact that all the 5500 odd students in the university enjoy some financial assistance or the other for their studies in the university.

Fresher’s Meet and Orientation

The office of the DSW organizes a fresher’s day along with an orientation session soon after the admissions are closed for the academic year. The fresher’s are addressed by the Deans/Directors of different schools/Centers, besides the Chief Medical Officer; Librarian; Chairperson, CASH; Chairperson, Proctoral Board; Chief Warden and are informed of the central facilities in the university besides the facilities in the respective Schools/Departments/Centers. The Vice-Chancellor delivers the address on this occasion as the Chief Guest.

Implementation of ban on Ragging

The office of the DSW undertakes to implement the ban on ragging on the Campus. The office of DSW makes sincere effort to publicize widely the ban on ragging by putting up posters. Anti-ragging squads are constituted with approval from the Vice-Chancellor and toll free numbers are provided to the students for any help. It is a matter of pride to the university that as was the case in the previous years, no case of ragging was reported during the academic year.

Student discipline

Ragging, use of drugs trafficking and eve teasing, which are criminal offences, are strictly forbidden in the University and persons found indulging in such activities will be subjected to strict disciplinary action as per the directives of the Supreme Court. Similarly, any criminal activity within or outside the University and any physical violence against fellow residents by any student will not be tolerated and will attract stern disciplinary action including rustication.

The SIB is located in the student center building where in the office of the Dean, Students’ Welfare brings to the notice of the students various circulars and program details regarding career guidance, etc. received from various institutions and Universities in India and abroad from time to time.

### 5.2.2 Medical insurance

The office of the DSW coordinates the task of medical insurance to the students from the day they are admitted to the day they leave the university. A group medical insurance scheme that is economical and the one that best suits to the students is negotiated with a reputed firm to offer cashless admission in corporate and reputed private hospitals for better medical care in case of emergencies. The students are provided an insurance coverage of Rs. 50,000/- for one year period, besides personal accident coverage of Rs. 1.00 lakh.

### 5.2.3 Financial Assistance

The Dean, Students’ Welfare recommends for sanction of financial assistance as and when such requests are received from students for medical expenses, academic needs, educational and sports tours. These representations are normally considered only when they are routed through the Head of the Department and Dean of the School, depending on the availability of funds. However, the DSW recommends for free studentships, waiver of late fee (semester registration) etc., in the case of limited number of deserving cases.

As the details above show out of 5159 students on rolls in 2013-14, 4238 (82.15%) students have been given financial support. Students eligible for the scholarships provided for S.C, S.T and O.B.C students by the state governments also receive scholarships sanctioned by the respective state governments. As many as 1280 students received such scholarship during the year 2013-14. Similarly, students eligible for the scholarship provided by the central government under "Single Girl Child" have also been sanctioned the same during the year.
7.0 As in the previous years, the University continued to promote the cause of higher education for students from weaker sections of the society by providing special facilities for SC, ST, OBC and Persons with Disabilities (PWD) students and welfare measures to the employees.

7.1 Reservations
The University of Hyderabad has adopted the policy of reservations in respect of SCs, STs, OBCs and PWD, wherever applicable, as per the Government of India / UGC orders. Reservations are being provided to the extent of 15%, 7.5%, 27% and 3% respectively in recruitment (direct), promotions, admissions and hostel accommodation besides allotment of quarters (excl. OBC category) to teaching and non-teaching employees.

In terms of fulfillment of SC/ST / OBC / PWD quotas both in admissions and recruitment, the University is able to achieve an overall representation of SC - 17.8%; ST – 5.8% in non-teaching posts and SC – 18.1%; ST – 9.4%; OBC – 30.4% in student admissions during the year 2013-2014.

Regarding teaching posts, the University, in accordance with the directives of the University Grants Commission, is implementing the reservation policy in respect of Lecturers since inception. Against the sanctioned 219 Assistant Professor posts, 156 Assistant Professors were on the rolls of the University during 2013-2014, out of whom SC – 19 (12.2%); ST – 11 (7.0%); OBC – 16 (10.2%); PWD – 05 (3.2%). In compliance with the UGC guidelines August 2006, the University is also implementing reservations to Readers / Associate Professor and Professors.

7.2 Mechanisms for Safeguards
Effective implementation of reservations to SC/ST involves continuous monitoring, review and redressal. Keeping these requirements in view, the following Standing Committees have been constituted in pursuance of UGC guidelines:

7.2.1 SC/ST / OBC / PWD Admission Advisory Committee
This committee is convened twice in a year during the time of academic admissions under the Chairmanship of the Vice-Chancellor for taking appropriate steps to fill the gaps in attaining the reservation targets of SC, ST, OBC and PWD.

7.2.2 SC/ST Standing Committee
This committee is being convened twice in a year under the chairmanship of the Vice-Chancellor for monitoring, implementing and review of reservation policies. The committee consists of 7 to 10 members of whom 4 to 5 belong to faculty, one external member from the State Social Welfare Department, Registrar as a special invitee and Deputy Registrar (Reservations) as the Member-Secretary.

7.2.3 SC/ST/OBC Grievance Committee
This committee looks into the grievances of SC/ST / OBC employees pertaining to their promotions, seniority, appointments etc. The committee meets from time to time as per the requirements of the employees.

7.3 Special Recruitment Drives
The University has been consistently complying with the directions of the Govt. of India on filling the backlog positions as and when accrued through special recruitment drives.

7.4 Reservations in Admissions
In accordance with the policy of the Government of India and the guidelines of the University Grants Commission, the University has reserved 15% of seats in each course for candidates belonging to the Scheduled Castes, and 7.5% for those belonging to the Scheduled Tribes, with a provision for inter-changeability between these categories, wherever necessary.
In accordance with the policy of the government of India and the guidelines of the University Grants Commission, 27% of the seats in each course are reserved for OBC (non-Creamy layer category) candidates.

### 7.4.1 Relaxations in Minimum Eligibility for Admission
For admission to all post-graduate courses, viz. M.A., M. Sc., M.C.A., M.F.A., M.P.A., Advanced P.G. Diploma., Diploma courses; and 5 year Integrated Master’s Degree courses; minimum eligibility condition to SC/ST candidates is “pass” in the minimum qualifying examination.

For admission to M. Phil., M. Tech. and Ph.D., relaxation of 5% marks in the minimum eligibility condition is provided to the SC / ST candidates.

There is no relaxation in minimum qualifications for admission and no concessions in the entrance examination fee for OBCs. However, there is a concession in the cut-off marks in the entrance examination (both written and interview put together) which is 10% lower than the cut off prescribed for admission for general category candidates in any course.

### 7.4.2 Reservation of seats for the Persons with Disability (PWD) (physically challenged) candidates
3% of seats on approved intake in each course are provided as supernumerary seats for the physically challenged candidates. This is split into: 1% for visually challenged (VH), 1% for hearing impaired (HI) and 1% for orthopedically handicapped (OH) candidates with a provision of interchangeability. Theminimum eligibility requirements prescribed are relaxed intheir cases as in the cases of SC / ST candidates.

### 7.4.3 Special Admission Notification for Exclusive Attention of SC / ST Candidates
Every year, the University releases a special admission notification, besides the general one, exclusively for the attention of SC/ST candidates.

### 7.4.4 Separate Merit Lists for SC/ST Applicants
After the entrance tests, separate merit lists in each course for these categories of students are drawn up, and the students are admitted in order of merit against the reserved seats.

### 7.4.5 Concession Fee for SCs/STs / PWD
Concession is provided to SC/ST/PWD candidates in payment of the prescribed entrance examination fee when they apply for admission.

### 7.5 Relaxations upon Admission
The SC/ST students, who are offered admission and who are technically eligible for receiving the Govt. of India Post-Matric scholarships and also who belong to the State of Andhra Pradesh are provisionally exempted from initial payment of all the fees except refundable deposits. ### 7.6.1 Monthly Mess Advances
All the SC/ST students admitted to the University hostels, who are eligible for G.O.I. Post-Matric Scholarship and who have applied for the same are given an advance amount equivalent to the eligibility of scholarship on monthly basis to clear their mess bills. In essence, the SC/ST students need not pay their mess dues directly every month. Accumulated dues, if any, are adjustable at the end of each semester/year on receipt of scholarship amount from the Social Welfare Department.

Central Facilities

The various common facilities of academic and miscellaneous nature available to the constituents of the University students, teachers and non-teaching employees are listed in this chapter.

8.1 University Library

The Indira Gandhi Memorial Library is a central facility providing information support for academic and research activities of the University. The Library was established in the year 1975 and shifted to the present building during 1988, inaugurated by His Excellency Dr Shankar Dayal Sharma, the then Vice-President of India and named after Late Prime Minister Indira Gandhi. All the in-house Library Operations are fully computerized including the Web OPAC using the international Library Management Software Virtue supplied by VTLS inc., USA. The UGC-INFLIBNET has identified the Library as one of the 26 document delivery centres in India for providing photo copies of journal articles to the research scholars of other Universities. Since 1990, the Library has achieved several distinctions in the country:

a. The IGM Library is the first University Library to computerize all in-house operations.
b. The first Library to computerize other Libraries (Dr. B.R. Ambedkar Open University, A.P., and City Central Library, Hyderabad, A.P.)
c. The first University Library to start PGDLAN Course under Distance Education mode since 1998
d. The first University Library to subscribe Electronic Journals and databases.
e. National Board of Higher Mathematics (NBHM) has identified this Library as Regional Library for Southern Region.
f. The first University Library to establish a Centre of competency in digital libraries and e-learning with the assistance of SUN Micro systems and UGC.
g. The first University Library to install 3M Security Gate to avoid book thefts.
h. The first University Library to become a governing member of OCLC, USA.
i. The first University Library to install solar power system

The Library is being managed by 4 Dy. Librarians, 2 Asst. Librarians, 1 Documentation officer, 24 Professionals and 15 supporting staff. The Library is kept open from 8 a.m. to 12.00 mid-night on week days and 9 a.m. to 5.30 p.m., on Saturdays, Sundays and other Holidays and 8 a.m. to 8 p.m. during summer/winter vacation. During exams till 2 Am the library is kept open.

8.1.1 Library collection

The Library has rich collection of 4 lakh books, e-journals, e-books, reference books, serials, theses & dissertations, back volumes of journals, maps etc. The Library has a separate book bank for SC/ST students and 2500 braille books for visually challenged students. During the financial year 2013-14, the Library acquired 5016 books by spending Rs. 54.00 lakhs. Apart from this, the Library has received 672 books as gift from various sources worth approximately Rs.1.25lakhs. The Library renewed subscriptions to 262 print journals and 46 databases covering more than 35,000 e-journals for the 2014 calendar year.

8.1.2 Computerization

The Library has excellent IT infrastructure to manage all in-house operations as well as to provide specialized information services to the faculty and students over the Campus network. The hardware consists of IBM servers, storage devices, ZEUTSCHEF book scanners, hand-hold laser scanners, laser printers and 60 PCs. The Library is using VIRTUA application software and operating systems like SOLARIS, UNIX/LINUX, WINDOWS XP and WINDOWS-7. The Library uses barcode scanners for issue, return and renewal of books for accuracy and efficiency. 24 PCs are placed at the entrance Lobby for OPAC, e-mail and internet browsing. Similarly, 8 PCs are kept in the Library reading halls exclusively for searching of book data bases. The Library is connected to the Campus Network through 100 mbps optical fiber channel. The Library resources can be searched over the internet through OPAC. The Library is enabled with WI-FI connectivity for the use of laptops.
8.1.3 Digital Library
The IGM Library has established a model digital Library by signing MoUs with SUN Micro Systems and VTLS, USA. Under these MoUs, a Centre of Competency in Digital libraries and e-learning was established to undertake R & D activities by using Open Source Software and to create digital content in the University. Currently this facility is being used for conducting hands on training and practical classes for PGDLAN students. The Library is also a member of Universal digital library project of Carnegie-Melon University, Pittsburg, USA (Million books to the Web). Under this project, a scanning centre was established in the Library to digitize rare books. The Library has signed MoU with UGC-INFLIBNET Centre, Ahmedabad, to digitize and upload full text Ph.D. theses submitted to University of Hyderabad. Already 840 Ph.D. theses were digitized and uploaded to UGC-INFLIBNET Shodh Ganga project. The Library is also making efforts to establish ETD Lab. to digitize the remaining theses and upload to Shodh ganga under special grants provided for this purpose by INFLIBNET.

8.1.4 Readers Services
During 2013-14, 1,35,000 book transactions were made at circulation desks, i.e., issues, renewal and returns. Around 1500 scholars from other Universities and research laboratories visited the library for reference. The inter-library loan requests of the students, research scholars and faculty are being fully met with close co-operation from other libraries. The Library has supplied 110 articles under the Document Delivery Service to research scholars of other Universities. Library orientation programmes are conducted for newly joined students to familiarize them with the library services, resource and rules. The Library is also conducting orientation programmes on research methodology for social science research scholars. The website is meticulously designed with several e-resources which are helpful to the library user community.

8.1.5 Institutional membership
Twenty Research and Development Centres and Corporate organizations have enrolled/renewed themselves as institutional members by paying the prescribed annual membership fee, to make use of the Library resources and facilities.

8.1.6 Reprography services
The IGM Library provides reprography (photocopying) service inside the Library to all its members. A private firm has been engaged for this service during the working hours to all the library users at a nominal charge of Rs.0.50Ps. On an average, 6000 photocopies are taken out every day.

8.1.7 Facilities for the Visually Challenged
Visually challenged students have access to library resources through 5 multimedia PCs with JAWS’ and ‘Kurzweil’ speech synthesizer software, which enables to read-out the documents placed on the scanner. In addition, two workstations with Zoomex, readers are added to scan and convert image into text on the screen to enable the student’s to hear and also save the text. This facility is extensively used by the visually challenged students to read and print without anyone’s help. A separate Braille printer is provided for printing regular text in Braille.

8.1.8 Air-conditioned 24 x 7 Reading Halls
The IGM Library has two separate reading halls adjacent to the library, which are fully air-conditioned and being kept open round the Clock through-out the year. Students can bring their personal books, issued books from the Library and study in these halls without any disturbance. These reading halls have the capacity to accommodate 200 students at a time, and it is being used extensively. The reading halls are enabled with wireless network points, where students can search/browse e-journals subscribed by the library from their Laptops.

8.1.9 PG Diploma in Library Automation and Networking
The IGM Library under the agies of the University’s Centre for Distance and Virtual Learning Started a highly focused one year course – PG Diploma in Library Automation and Networking (PGDLAN) in January, 1998. This course is the first of its kind in the country, where a University Library is conducting an advanced level course under Distance Education mode. About 80-100 students are admitted every year.

8.2 Central Instruments Laboratory (CIL)
Being the distinction of FIRST building to come up in the vast university campus in 1979, the Central Instruments Laboratory (CIL) is a centralized facility with the state-of-the-art analytical equipment primarily to cater to the needs of the Science/Engineering/Medicine Schools of the university. CIL has been playing a crucial role of providing the instruments support to the research fraternity of the university. The list of instruments at CIL covers a broad range viz.,

CIL offers educational visits to the participants of short/long term courses at science schools of the university. While the CIL staff has also been sharing their experiences in the academic program of the university. The areas of specialization of the staff at the CIL include Mass Spectrometry, Radiation Spectroscopy (X-Ray, UV-VIS-IR), Microscopy, Advanced Electronics, Design and Development of Microprocessor and Microcontroller – based Systems, Embedded Systems, and Advanced Instrumentation systems design.

8.3 The Computer Centre
The Computer Centre was established in 1985 to facilitate, foster, and support the essential teaching and research goals of University of Hyderabad through the deployment and delivery of computing and communication services to the university’s faculty, staff, and students. As part of teaching process, students have access to computers for their course or project work. Its facilities are also used in work related to administration such as recruitment, academic, examinations, finance etc.

In 1993, ERNET selected University of Hyderabad to be one of the transit nodes for Internet connectivity with a narrow bandwidth of 9.6 Kbps. It was made operational through VSAT dish antennae. This transit node at the computer centre provided Email/Internet services to educational and research organizations in Andhra Pradesh such as IDRBT, NFC, DMRL etc. Further 128 Kbps microwave and 2 Mbps backbone links were established in the year 2000, 2001 respectively. UGC funds allocated in the year 2000, was utilized to increase the number of terminal points available to users. The UGC grant allocated in the year 2001 helped establish the 1 Gbps structured SM fiber optic network for the university. Further this expanded as a 2 Mbps point-to-point leased line between UOH and IDRBT, 2 Mbps UOH - Infosys (Hyderabad) - Bangalore leased line, and 128 Kbps ISDN line. In the year 2006, the bandwidth available to the university was enhanced to 4 Mbps. All residential buildings, hostels, and upcoming buildings were connected to the backbone network. Fourteen Wi-Fi towers were erected at different locations to create wireless hotspots. Consequently, the bandwidth was upgraded to 1 Gbps. A new email server was installed, and user authentication services were made operational.

With the expansion of the computing activities into different horizons the university distributed the staff at computer centre to various places such as A.I. Lab, CMSD, Campus Network Facility, Admin Computer Centre, F&A Computer Centre, Automated admission office, Centre for Integrated Studies at South Campus and other Schools/ Centers to tap their inherent potential.

8.3.1 Campus Network Facility (CNF)

CNF is responsible for the management, operation and support of the campus network and coordinates the design, long-range planning and procurement of a broad range of network services and accessories. The campus network covers about 10,000 LAN ports. The Campus Network consists of high-speed connectivity to a fully redundant OFC backbone. The backbone spans to 40 distribution nodes and other Campus buildings. For easier management, the campus network is made into more than 80 subnets. Communication speeds are 1 Gbps between distribution switches and a minimum of 1 Gbps. between nodes (wherever the access switches & nodes support 1 Gbps) and 24 Mbps on ADSLs which are placed across Campus quarters and some sections wherever network cable could not be laid.

Hostels Network: CNF provides an Ethernet network connection to students living in University residence halls. In this Network Expansion Plan following Hostels are provided with wired connectivity. All the hostels and complete Guest House Complex is provided with power backup facility for the Network equipment.

- Ladies Hostel-7
- Ladies Hostel-8

Data Backbone: The OFC is laid from building to building for backbone connectivity. 24 core Single Mode Outdoor Fiber Cable is laid between the Main Campus and the South-West Campus for redundancy as the old OFC (UG) had multiple cuts.

To complete the ring, CNF has laid OFC from old KV School to Men’s Hostel-H and MH-G to MH-F.

CNF services are being provided free of cost (initially) to the students.
**Wireless:** UoH students, faculty and staff can also connect to the Internet in some campus locations with a fast and convenient wireless connectivity. In areas serviced by this wireless service, users only need a laptop/tablet/smart phones, a wireless network card and an Internet Access account to get on to the campus network to check email, seek information on the Web or access e-Journals subscribed (UoH has IP based access) by the University. On the wireless network, the campus is provided with data access speeds ranging from 54 Mbps to 300 Mbps. The wireless network expansion work will be taken up in the other buildings on the campus. CNF is looking for various wireless solutions (through PoCs).

**NKN high speed network:** NKN is a high-speed network used exclusively by universities, government agencies, and select research institutes and dedicated to developing and testing advanced Internet technologies. UoH is one of many universities participating in the NKN effort. As our university is one of the heavy users of Internet, CNF will make all efforts to request NKN to increase the Internet bandwidth to our University.

**Network Security (optimized during 2013-14)**
- **Firewalls:** UTM based firewall (on HA mode) and a multitude of smaller firewalls, are deployed and managed by CNF.
- **Intrusion Prevention System (IPS)** is deployed on the network in order to provide an additional layer of security and compliance for the campus community.
- **Content filtering:** The UTM based content filtering is in place and possible.
- **URL filtering:** UTM's URL filter enables to block specific websites, without interfering with access to appropriate sites. UTM firewall includes an integrated URL filter which identifies and classifies millions of websites. The UTM regularly scans a range of data sources to update the URL database using a processing algorithm, present in the UTM's.
- **A web proxy** (on a test bed) is setup to provide access to e-journals from outside campus.

The CNF has network devices such as Allied Telesis Core, Distribution and Access Level Switches, Cisco & Dlink routers, Cisco Core Switch, Cisco Distribution Switches, Netasq-UTM(HA Mode), Fluke Network Tools, Cisco, Ruckus & Dlink Wi-Fi access points and towers, Dlink DSLAMs and ADSL Modems, DNS and DHCP Servers, Security System Servers, a JMS based mail server etc.

**Implemented the sanctioned work (2013-14):**
1. All identified access switches at the School / Department / Centre / Hostel Buildings have been replaced with new 10/100/1000 switching to support the new technology which will support the upcoming technologies.
2. All School / Department / Centre / Hostel Buildings are connected over Fiber optic Cable.
3. Providing a robust network (Ring-cum-Mesh) to reduce the down times and to provide better/seamless Network Services to the Campus fraternity.
4. Provided room wise wired connectivity to all the remaining Hostels which have not been connected, in the initial phase, through wired along with Wireless connectivity as far as possible.
5. Security measures are strengthened to maintain proper Network by implementing policies like Captive Portal for Guest / other user logins.
6. CNF implemented a cloud setup for the University users. This private cloud offers resources as services, flexibility to meet future demands of the campus network users, resources sharing, and more importantly reduce the time to deliver what users demand.
7. Renewed the campus wide licenses for popular academic/research applications such as Mathworks (Matlab & Simulink) and Microsoft products.
8. Steps are being taken to enhance the usage of the licenses with continuous support on the above products from the suppliers.

**CNF proposed to complete the following in the next year (2013-14):**
1. CNF is also proposing to setup a Video Conferencing setup for the University. This VC setup is proposed to offer webcasting facility, e-class rooms and video conferencing facility.
2. Complete the Ring formation on the OFC network. The work is already initiated.
3. Proposed to implement/setup IPv6 based network.

To have proper administration the CNF structure is being regulated by ECCNF (Empowered Committee for Computing and Network Facility) consisting of the following members:
Important events
Technical sessions were held to help the staff to acquire the knowledge about latest network technologies. Sessions were held on network equipment, network software including passive and active devices.

Following staff members were sent to Singapore to have advanced training on the Allied Telesis switching.
