## PREFACE

The Institute for Studies in Industrial Development (ISID) has built an extensive On-Line Index (OLI) of important Indian social science journals and the same is available on the INTERNET in collaboration with the National Informatics Centre (NIC). However, realising that INTERNET facilities are not widely available especially to scholars in remote places, it was decided to bring out some of the social science Indexes in print format. Volume One of the ISID Index Series is devoted to the Economic and Political Weekly (EPW). The Volume covers the initial thirty years -- August 1966 to August 1996.

Indian Economic Association Trust for Research and Development has been functioning since 1987 with the objectives which, inter alia, include promotion of excellence in the field of research in economics in India. In this background, the task of bringing out the printed volumes of OLI, of important Indian social science journals, shall go a long way in realising the objectives of the Trust.

The present volume has three parts. **Part One** contains chronological listing of the main contributions in the EPW since its launch in August 1966. Listing of Editorials, Capital Reviews, Weekly Notes and the like form a part of the ISID's database and are accessible on the computer. For reasons of bulk these have not been included in this volume. **Part Two** comprises the Author Index to title entries and **Part Three** includes the Subject Index. The Subject Index is broadly based on key words in the article titles. We have generally refrained from standardising authors' names.

Members of the Corporate Studies Group (CSG) at the Indian Institute of Public Administration initially translated the idea of a user-friendly document search facility into a practical utility. After the ISID took over the functions of the CSG, Shri Bhupesh Garg has been mainly responsible for improving upon the original OLI software by adding new features and expanding the database. Shri S. Majumdar, Dy. Librarian, Indian Institute of Public Administration, and Shri N.J. Sebastian, Librarian, National Council of Applied Economic Research, made many useful and practical comments in preparation of the Subject Index. Their experience and knowledge of library science helped the volume to have professionalism in the subject classification. We are thankful to them for their interest and contribution.

The credit for publication of this volume goes to Dr. K.V.K. Ranganathan and Shri M.R. Murthy who benefited from suggestions of Shri Chalapati Rao. Shri Sunil Kumar Agarwal kept the OLI updated with periodic support from his other colleagues. Shri Rakesh Chandra Dandriyal, Shri Sudhir Aggarwal, Mrs. Usha Joshi, Shri Rakesh Kapahi and Miss Hardeep Kaur deserve a special mention in this respect. Shri Umesh Kumar Singh prepared the final page format of this volume.

We invite users' advice and suggestions for improving presentation of the subsequent volumes and editions.
