CAS SciFinder for Academic Research

3rd Feb 2026 (Tuesday)

03:00 PM to 04.30 PM

Indira Gandhi Memorial Library

Online Link of Session (Library website)

About SciFinder:

SciFinder^n helps researchers locate latest discoveries and competitive intelligence, empowers them to locate most relevant, actionable literature advance their research ideas forward. A global network of expert scientist's curate and aggregate the world's scientific patent and journal content daily and make it fully discoverable through the advanced technology contained in SciFinder^n. This ensures researchers have the most current and accurate information available quickly supporting their critical research activities. SciFinder^n has access to workflow tools designed to support multiple scientific research functions and requirements. This includes many exciting new features like **SearchSense AI-assistance, text-based reference/ reaction and substance search, protecting groups, creating alerts for literature, customized reports and research focus area, advance strategy for substance and reaction search, interactive Retrosynthesis** etc.

Contents of CAS SciFinder

SciFinder contains more than 60 million value-added abstracts, more than 250 million organic/inorganic/Biological substances, more than 70 million sequences, more than 150 million chemical reactions, more than 3.5 billion property values and much more covered from 50,000 journals and patents from 109 issuing authorities. SciFinder's multi-disciplinary coverage includes unmatched content for various subject areas in –depth.

Agenda of the training: What SciFinder can do for you?

- Introduction to SciFinder
- Literature Searching
- Substance Searching
- Reaction and Retrosynthesis
- Introduction to SciFinder Discovery Platform
- New Enhancement in SciFinder

Who Should attend:

- Chemistry
- Life Science
- Engineering Science
- Medical Science
- All Professors, Ph. D Research Scholar, Students, etc.
